

**Question** My understanding is that the Scott County R-IV School District in Missouri has approximately 923 students and around 69 classroom teachers. If this is the case we believe that FortiGate 601F Firewall will be a good choice. Is it okay to list that? Or do you have something else in mind? For FORTISWITCH Switch - FORTISWITCH 248E-POE - 1RU - Wired - 1Gbps - Networking / Ports Qty: 52 - Gigabit Ethernet - None Processor - 512MB RAM - 128MB Flash Memory - Power supply - 100-240V AC, 50/60 Hz - RADIUS Authentication - Layer 2, Layer 3 Is it okay to list that? Or do you have something else in mind? We believe you will need the PoE for the WAPs. You only mentioned installation. Does this mean no configuration is needed? Or did you mean installation and configuration?

**Answer:**

For the firewall i think in the past we had looked at the Fortigate 200G we are open to suggestions. Student count is correct. Teacher count is closer to 90. Layer 3 is preferred on at least 1 switch, layer 2 for remaining. yes POE on APs, 10G transceivers, Multimode, We are open to suggestions on APs as well i have model numbers sent over to be posted on the RFP. Installation and Configuration is needed.
